Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hara (United States Patent No. 5,202,655 of record) in view of Millman (of record) for reasons of record.

Response to Arguments

3. Applicant's arguments filed 12/13/02 have been fully considered but they are not persuasive.

The applicant argues that Hara does not disclose an active inductor with the two ports as claimed.

This argument is not persuasive because Hara states "pseudo gyrator circuits 10 and 20 serve as an ideal gyrator to form an **ideal active inductor circuit**" (col. 4, lines 64-65) and "By substituting pseudo gyrator circuit 30 of FIG. 2 for pseudo gyrator circuits 10 and 20 of FIG. 1, a low pass filter can be obtained..." Therefore, the gate and source of the second FET in the modified Hara circuit forms two ports.

Allowable Subject Matter

4. Claims 6, 11, and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter:
The prior art references neither discloses nor suggests the claimed subject matter of FET as

Art Unit: 2817

feedback connected as recited in claim 6, resistor as feedback (claim 11), and a capacitor connected between the drain of the first and source of the second transistors (claim 16). With respect to the Ko et al. reference, it is not clear where the inductor ports are located.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
